Instructions Post Coronavirus Disease 2019 (COVID-19) Testing

The probability of transmitting the COVID-19 virus to others is possible, whether the infected person has symptoms or not.

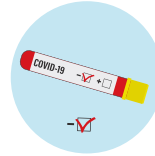

All those who underwent the COVID-19 test, should adhere to the following:

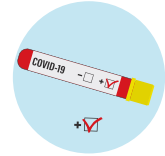

Go home immediately and self-isolate until the results appear

Download Sehaty application to check the result

If the result is negative, you can resume your regular life

If the result is positive:

- ✓ A healthcare provider will call you within 24hrs to check on you and provide you with the necessary instructions.
- ✓ Stay home, do not go out.
- ✓ Do not socialize with others unless urgently needed such as going to the hospital. Wear a face mask and keep a safe distance from others.

You will be asked during your home isolation to monitor yourself and record any disease symptoms, such as

fever
(37.8 or more)

cough
difficulty breathing

sore
throat

If your current symptoms get worse or you develop new symptoms, please call the hospital on 0114647272 and dial the extensions 34755 or 20910, to evaluate your health status and provide you with guidance.
