Tips to Prevent Getting Infected With "COVID-19" Virus While Being in Beauty Salons

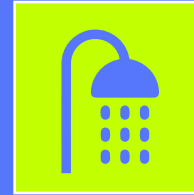

Do not go when showing any disease symptoms

Go to beauty salons that adhere to precautionary measures

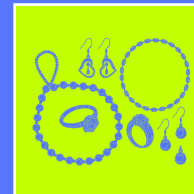

Adhere to wearing cloth or medical face mask inside the beauty salon

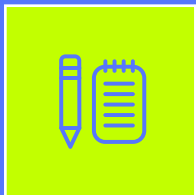

Wash hair at home to minimize unnecessary contact with workers

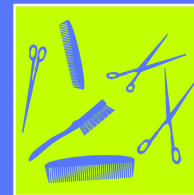

Keep face mask on during services that do not require removing it such as hair cutting, styling, etc.

Avoid accessorizing with jewelry and others

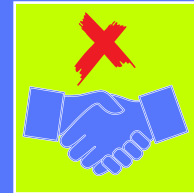

Pre-book an appointment and adhere to it

Bring personal care tools such as nail tool kit, hairbrushes and disposable hair towels

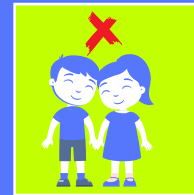

Follow sneezing and coughing etiquette and social distancing rules

Avoid shaking hands or hugging or kissing

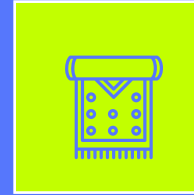

Properly wash or sanitize hands after touching surfaces and before touching eyes, nose and mouth

Do not bring children under the age of 7

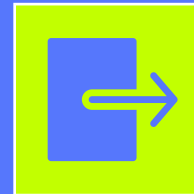

Use electronic payment instead of cash

Bring a personal prayer mat to use when needed

Do not bring others without pre-booking for them

Leave immediately after finishing to avoid gatherings and direct contact
