Advices to Prevent Getting Infected With “COVID-19” Virus When Renting Domestic Workers by the Hour

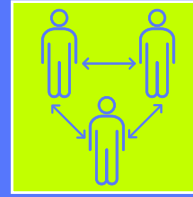

Dealing with companies that adhere to precautionary measures

Wear a face mask all the time, change it when damp or damaged and dispose of it correctly

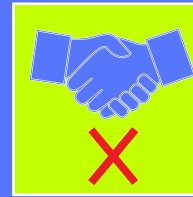

Wash or sanitize hands properly before and after work

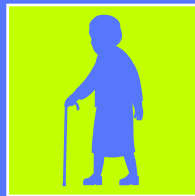

Apply social distancing with family members

Follow sneezing & coughing etiquette

Do not shake hands

Domestic workers should not come in contact with elderly and those with chronic diseases

Report when confirmed/suspected cases are among family members
