Advices for Pregnant Women During Coronavirus Disease Outbreak

Clean hands using
soap and water or
alcohol sanitizer

Avoid crowds or direct
contact

Avoid touching eyes,
mouth or nose as
much as possible

Engage in physical activity
at home as per medical
advices

Sanitize used surfaces
like door handles

Communicate and follow
up with your primary
physician

Follow recommended
diet

Adhere to cough and
sneeze etiquette

Stay at home unless
necessary

Stay at least 2 meters away
from people who are having
respiratory symptoms

Report to your doctor in case of developing any respiratory
symptoms or having been exposed to an infected or suspected
to be infected individual
