**SUBJECT: KING FAISAL SPECIALIST HOSPITAL AND RESEARCH CENTRE (GENERAL ORGANIZATION) CONTRACT WITH ALDARA MEDICAL CORPORATION**

King Faisal Hospital and Research Centre (General Organization) [KFSH&RC (Gen. Org.)] recently signed an agreement with Aldara Medical Corporation to lease Aldara Hospital and Medical Centre (AHMC) to provide healthcare services for KFSH&RC (Gen. Org.). AHMC is a newly opened 250-bed facility, fully equipped to deliver care for KFSH&RC (Gen. Org.) patients.

This arrangement is driven by the need to provide continuing access to safe inpatient and outpatient services for KFSH&RC (Gen. Org.) patients, who may otherwise be compromised due to the ongoing situation brought about by the COVID-19 pandemic. The contract with AHMC provides more treatment options and facilities within very close proximity to the main Hospital.

A number of AHMC's management and staff have previously held positions at KFSH&RC (Gen. Org.) and they know our standards and expectations well. Likewise, we have been very encouraged by the enthusiasm and professionalism of the AHMC board, management, and staff to work with us in providing continuity of care for our patients.

This new arrangement is an extension of our services to the community, guaranteeing the same standard of care for KFSH&RC (Gen. Org.) patients. It also offers both organizations the chance for cross-fertilization of ideas and knowledge, providing learning and growth opportunities. However, I want to emphasize that the core business of KFSH&RC (Gen. Org.) remains unchanged.

On behalf of the entire Organization, I extend a warm welcome to our new partner, and look forward to providing continued excellent care to our patients.

Thank you.

MIF
